

## MultiDog Mooring Connector - MC-9R

The heavy weight MultiDog Mooring Connector provides field proven technology with a holding capacity up to 1000 ton in the mooring line.

The connector has nine locking devices and cannot be released under load. It can however be easily released on deck using standard manual deck tools.

The connector is designed to be drawn over the vessel stern roller.

## Specification

Capacity: Certified according to Maskinforskriften nr 544  
Capacity up to 1000 ton MBL

Dimensions: Designed to fit 84mm R5 stud chain  
Material S165M

To be used together with FM-9R receptacle ring.

The field proven MultiDog connector combines state-of-the-art material technology with reusable rugged lightweight construction to save time and money during subsea installation and recovery operations
