MultiDog Blind Plug / Anode Plug - BP-3R

The ROV installable MultiDog Blind Plug is designed to be used to provide protection of the female receptacle against marine growth, debris intrusion or drilling waste on long term subsea installations.

In addition it can be configured to provide electrical current connection for cathodic protection using an external anode bank.

- ❖ ROV friendly
- ❖ Easy to install
- ❖ Reusable
- ❖ No depth limitations
- ❖ Custom design

Cathodic cable connection

Specification

Dimensions: Suit interface key ring FM-R1, FM-R3 and FM-R6.

The field proven MultiDog connector combines state-of-the-art material technology with reusable rugged lightweight construction to save time and money during subsea installation and recovery operations
